

Curriculum Vitae

A man with short black hair, wearing a dark blue long-sleeved shirt with a white geometric pattern and a white Nike swoosh on the chest, stands in front of a poster. The poster is titled "Nonsmooth Variational Problems and Operator Equations" and features a large number "8" in a box. The text on the poster includes: "These are fundamental in many technological applications, such as problems arising in nature and economy. Research on nonsmooth variational problems and operator equations is a very active area of research. The ultimate attention is hereby the parallel development of tailored numerical algorithms." Below the text are five small icons of people. The poster also has a section titled "Gas Transport Problems" and a list of bullet points. At the bottom, it mentions "University of Duisburg-Essen" and "Department of Mathematics".

"It is true that a mathematician who is not somewhat of a poet, will never be a perfect mathematician." - Karl Weierstrass
